

Celebrate Earth Day with #1MORE Pledge

April 20, 2018

SCREVEN, GA (April 20, 2018) – At Broadhurst Environmental Landfill, environmental stewardship is at the core of all we do to serve our customers and community. With sophisticated systems in place to protect the air, land and water at and around the Landfill, we are committed to environmentally responsible operations.

In preparation for Earth Day on April 22, the Broadhurst Landfill team is encouraging our community to commit to #1MORE act of environmental stewardship or community service that helps to preserve our Blue Planet™. Whether it's looking for actions you can take at home, work or school, when trying to make a meaningful impact to help the environment, no act is ever too small, and every act counts.

To find great ideas on what you can do this Earth Day, visit <https://www.epa.gov/earthday>, and join us in making a commitment to our environment as all of us work to protect it today and preserve it for future generations tomorrow.
